ASPECTS

Money & Micro-Goals

Less ~~guessing~~, more growing.

A private, offline-first app that tracks your money, grows your habits and saves you towards the things that matter.

PRODUCT OVERVIEW · VERSION 1.2.0 · OCTOBER 2026

WHAT IS ASPECTS

One app for your money and your momentum.

Most budgeting apps only look backwards. ASPECTS pairs a money tracker with small daily goals, so every day you know where you stand and what to do next.

💰

Track your money

Income and expenses in seconds, with categories, budgets and charts.

- Monthly budgets per category
- Recurring salary, rent and subscriptions
- Your full history, month by month

✅

Grow your habits

Break big plans into micro-tasks you can finish today, and stay focused.

- Priorities, due dates and reminders
- A built-in 25-minute focus timer
- Daily streaks and levels

🎯

Save for goals

Set targets like a laptop or a trip and watch the progress rings fill.

- Move money in or out at any time
- Estimated time to reach each goal
- A celebration when you get there 🎉

📶 Works with no internet

🔒 Your data stays on your device

📲 Installs like a real app

🙅 No account, no ads

🌍 Rands, built in South Africa

OVERVIEW

Your whole picture on one screen.

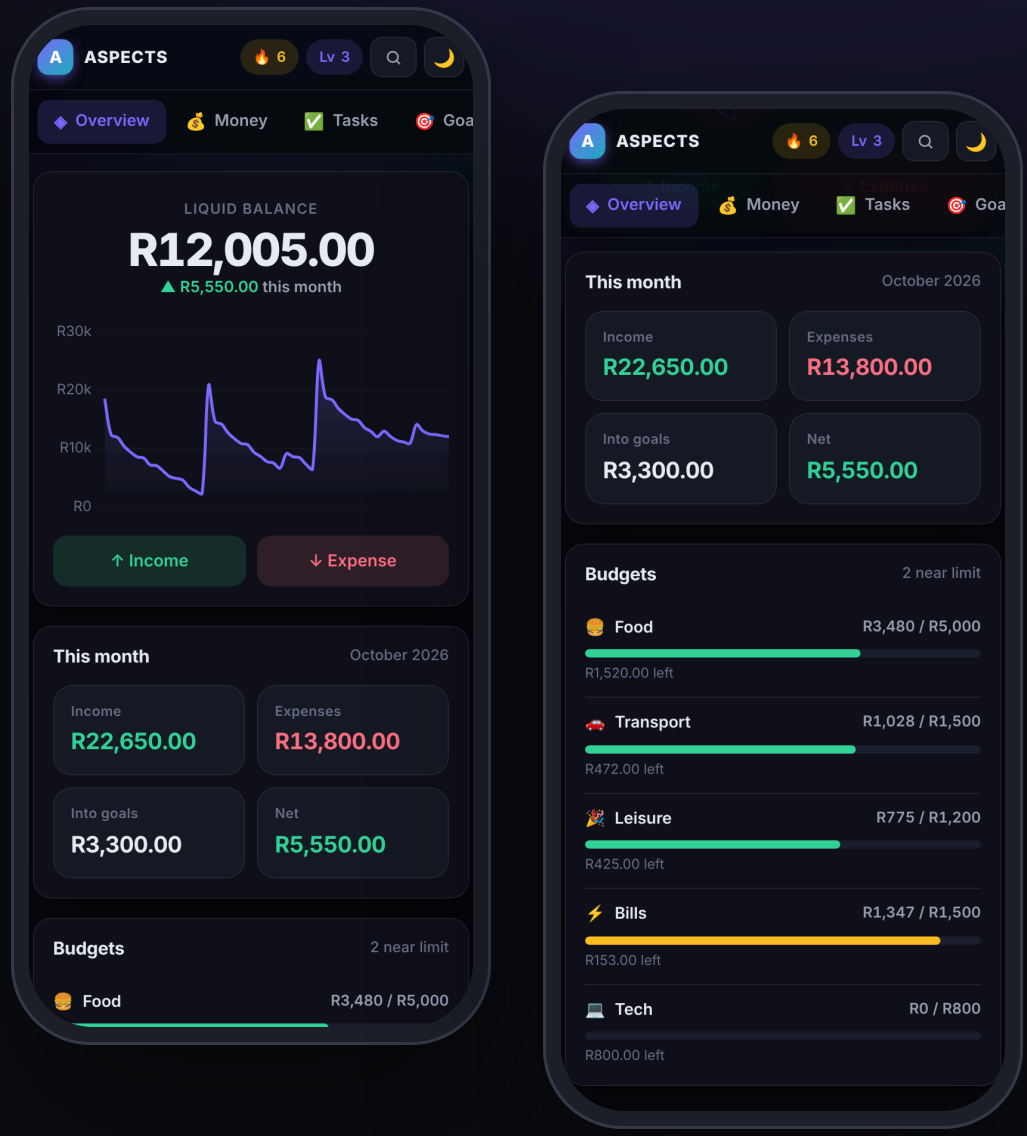

Open the app and you know where you stand, before you've scrolled.

Liquid balance & trend
Your balance right now and how it has moved over time.

This month at a glance
Income, expenses, money moved into goals and what's left.

Budgets that warn you
Bars turn amber near the limit and red when you're over.

Due & overdue
The tasks that need you in the next two days, plus your recent activity.

RECORDING MONEY

Two taps, a few numbers, done.

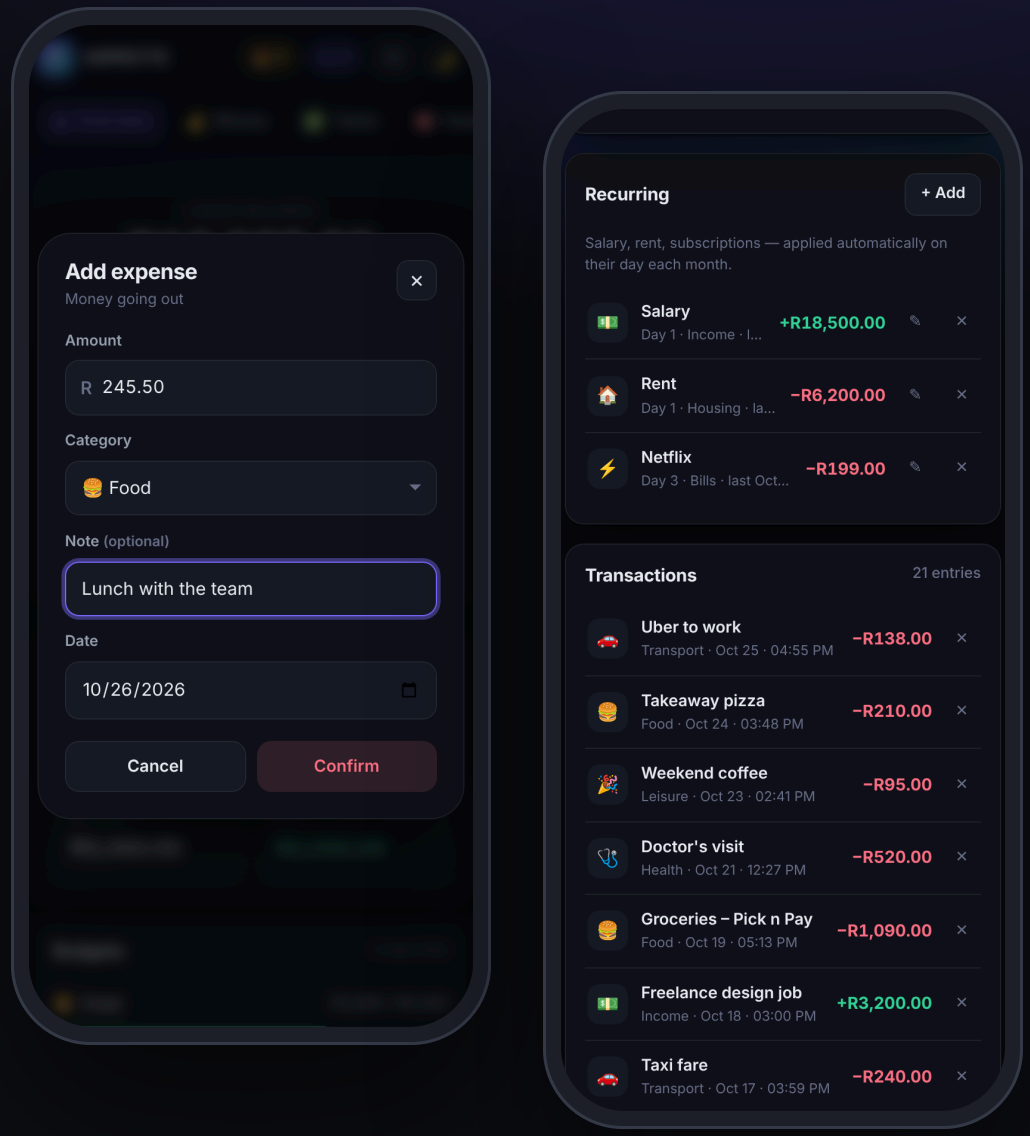

Tap ↑ **Income** or ↓ **Expense**, enter the amount, pick a category and confirm. It's saved on the spot, even offline.

🍔 **Eight clear categories**
Food, Transport, Housing, Bills, Tech, Health, Leisure and General.

🔁 **Recurring entries**
Salary, rent and subscriptions log themselves on their day each month.

↩️ **Undo, always**
Deleted something by mistake? One tap brings it back.

🚨 **Instant budget alerts**
Go over a category's limit and ASPECTS tells you straight away.

MONEY INSIGHTS

See exactly where your money goes.

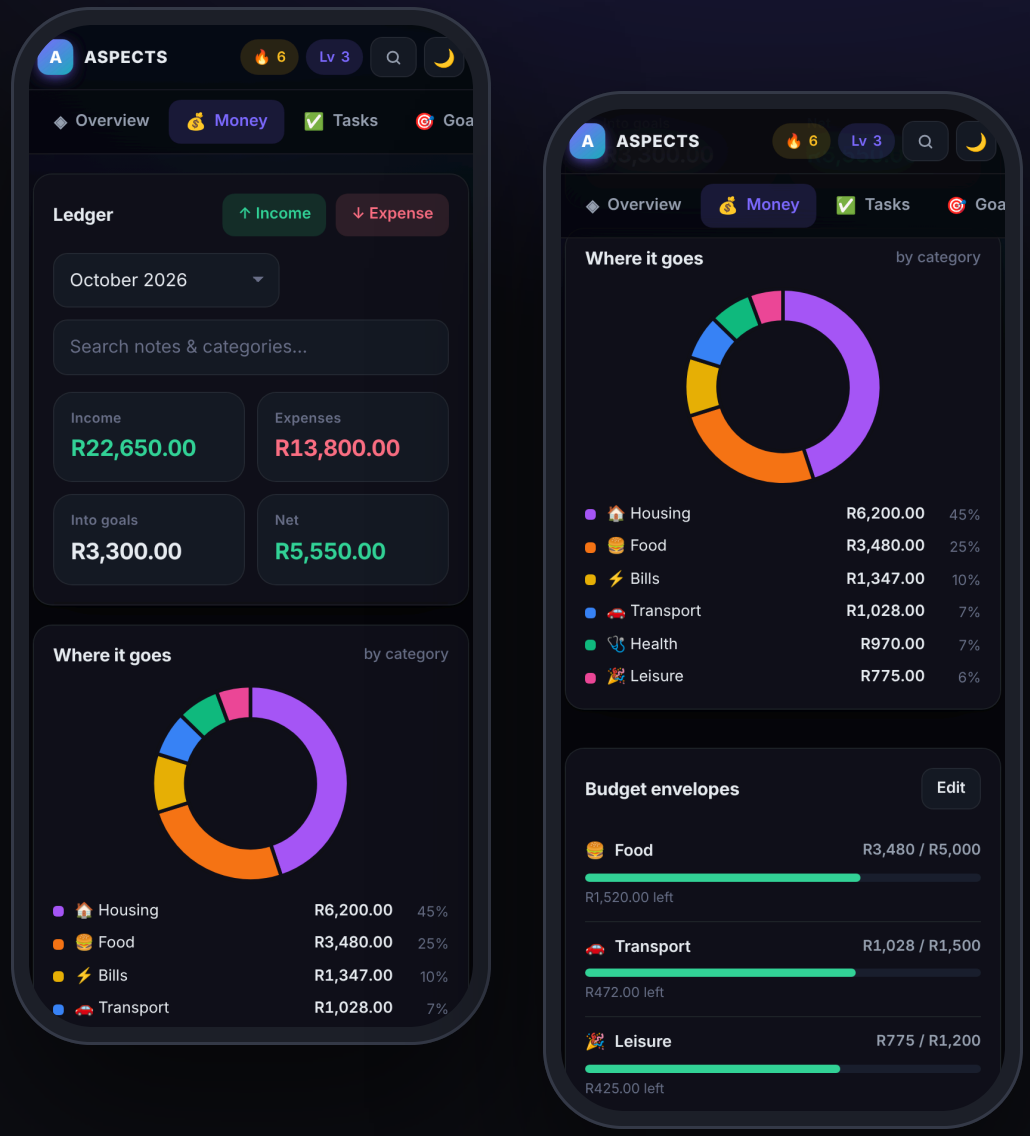

Every month is kept, forever. Go back to October from next year and it's all still there.

🗂️ **Any month, or All time**
Pick a month to see its income, spending and net, or view your whole history.

🍩 **Spending by category**
A colour-coded chart with amounts and percentages for each category.

🔍 **Search everything**
Find any transaction by its note or category in an instant.

✉️ **Budget envelopes**
A monthly cap per category, with how much is left to spend.

MICRO-GOALS & FOCUS

Small steps. Real momentum.

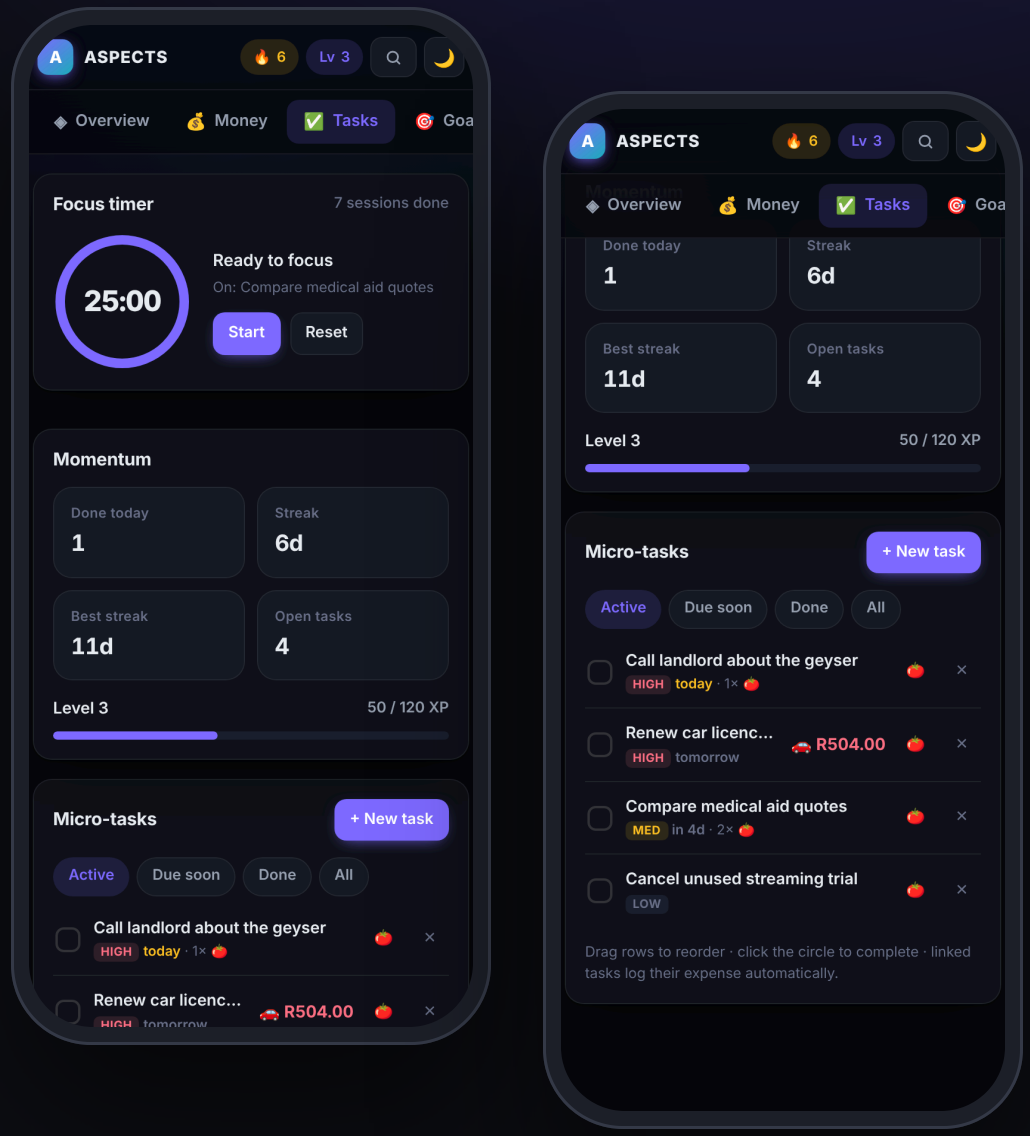

Turn big plans into micro-tasks you can finish today, and build the habit of finishing them.

Micro-tasks with priorities
High, medium or low, with due dates and filters. Drag to reorder.

Tasks that cost money
Tick "Renew car licence" and its R504 is logged as an expense.

Built-in focus timer
25 minutes of focus, 5 of rest. It even survives closing the app.

Streaks & levels
Earn XP for every task and session, and keep your daily streak alive.

SAVINGS GOALS

Name it. Fund it. Watch the ring fill.

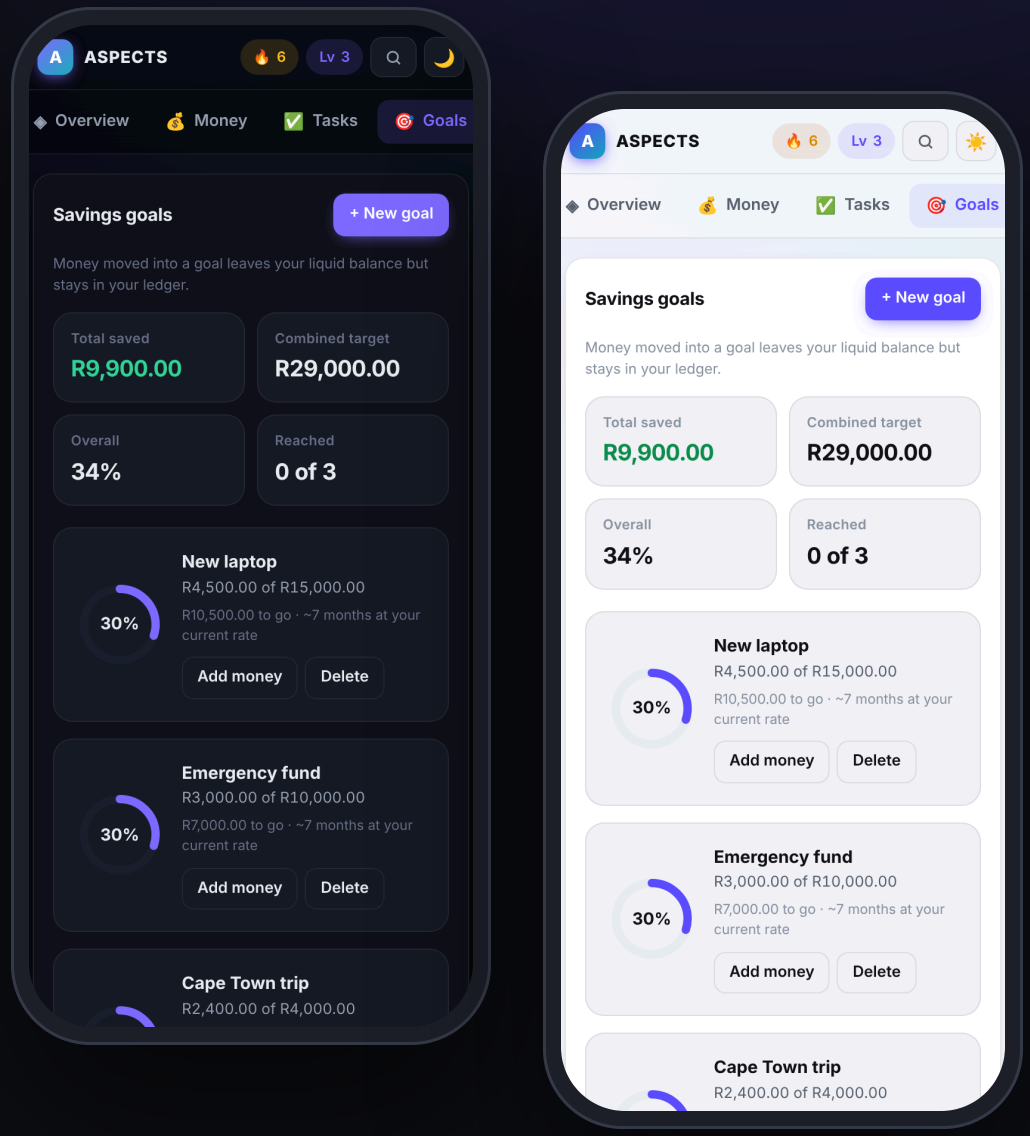

Money you move into a goal leaves your spending balance but stays in your records, so nothing is ever lost.

⭕ **Progress rings**
Each goal shows what's saved, what's left and the percentage done.

⏳ **Time to goal**
"~7 months at your current rate", worked out from how you actually save.

💱 **Add or take back**
Move money in, or back out when life happens.

🎉 **Celebrate the win**
Confetti when a goal is reached, because you earned it.

NEW IN 1.2 · REPORTS

Your money, as a polished PDF.

Pick a week or a month and tap **Download PDF**: a clean statement ready to keep, print or share.

The four numbers that matter

Money in, money out, savings and what's left, plus a one-line summary.

Where the money went

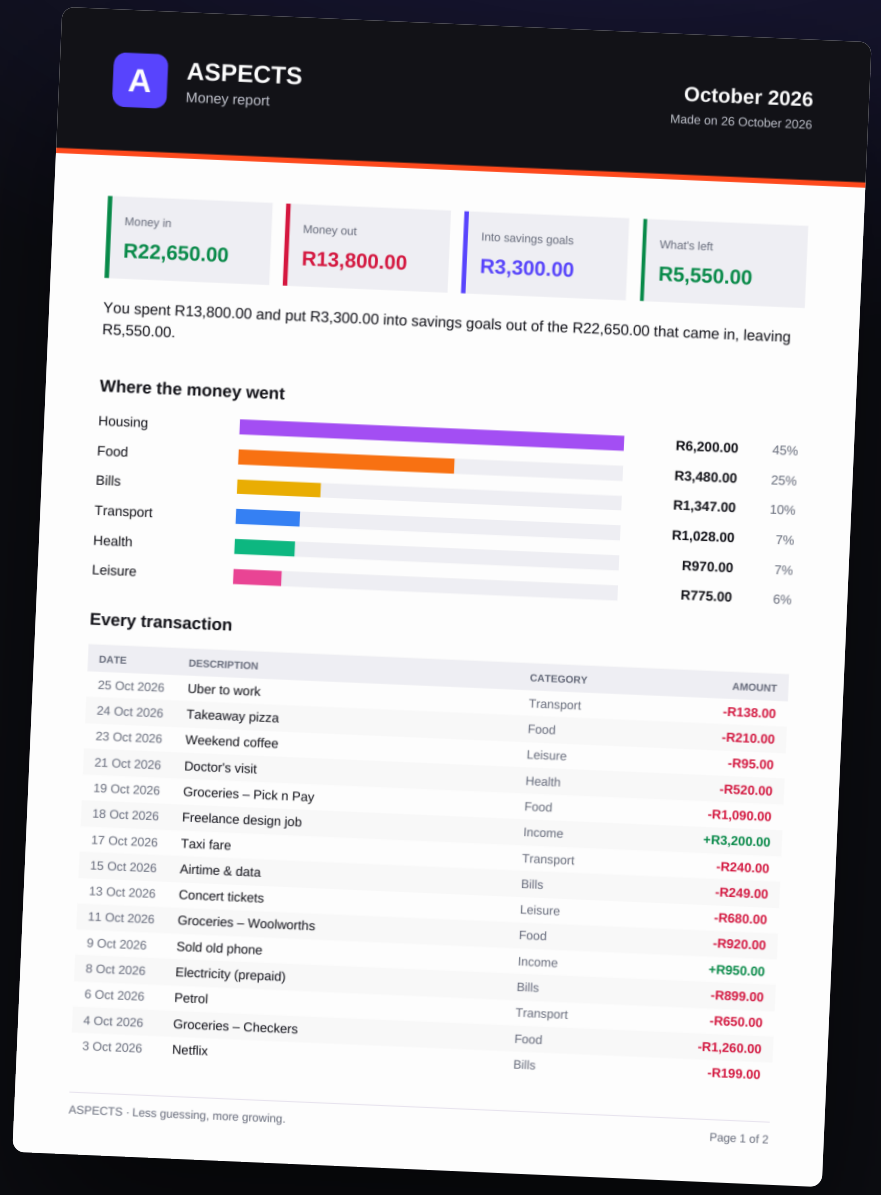

Spending by category as colour-coded bars with percentages.

Every transaction

Dated and categorised, across as many pages as it needs.

Made on your phone

Created on your device, even offline. Nothing is uploaded.

PRIVACY & BACKUPS

Your records never leave your device.

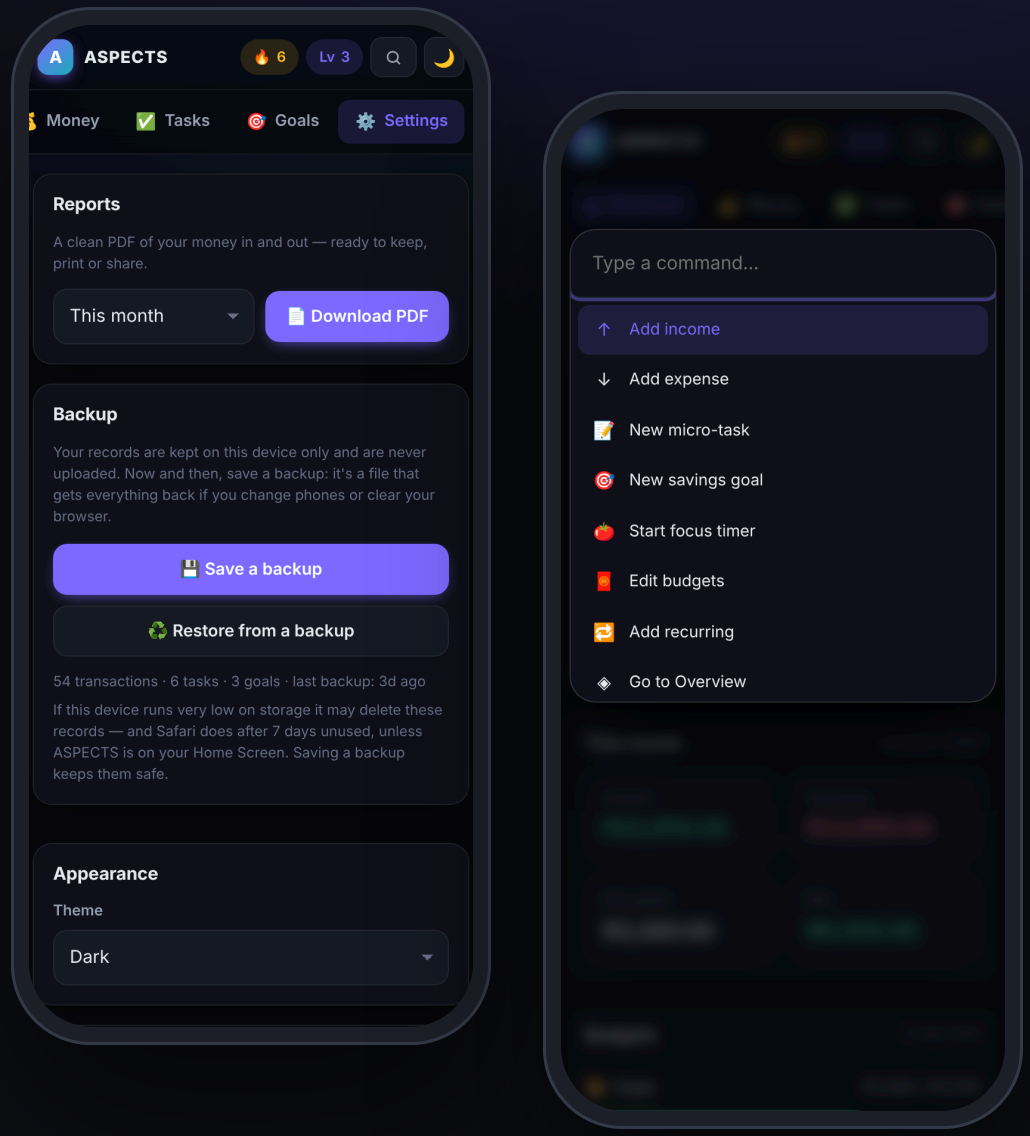

No account and no cloud: your finances live on your phone. Backups are in plain words for everyone.

Save a backup
One file holds everything. Keep it safe or move it to a new phone.

Restore, your way
"Add what's missing" without duplicates, or "Replace everything" with a safety copy first.

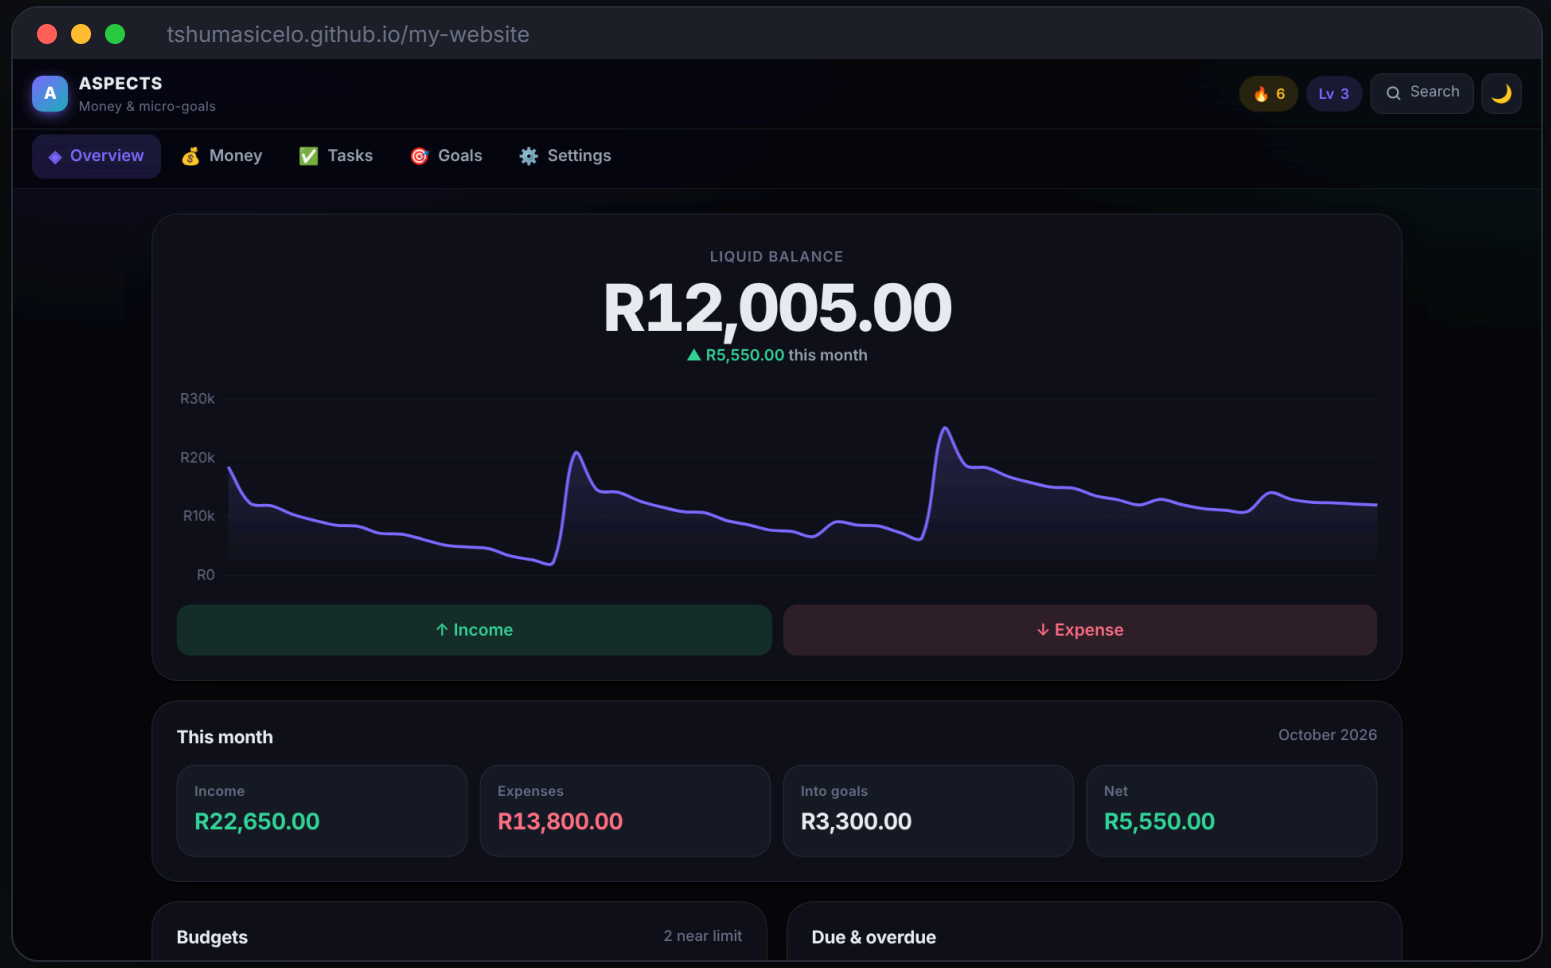

Safe by design
Damaged data is set aside instead of being overwritten, and upgrades never wipe records.

Two tabs, one truth
The installed app and a browser tab stay in sync without erasing each other's entries.

EVERYWHERE YOU ARE

Phone, tablet or desktop. Online or not.

Install in one tap
Add it to your home screen and it opens full-screen, like any app.

Works offline
No signal? Everything still works, and nothing is lost.

One-tap updates
"Update now" brings the newest version, with your data untouched.

Dark or light
Or match your phone's setting automatically.

Search & shortcuts
Find any action from the search bar, or add an expense from your home screen.

BUILT TO BE TRUSTED

Tested on every change, on the engines your users use.

66

automated checks run before any update reaches users.

2

browser engines: WebKit (Safari, every iPhone) and Chromium (Chrome, Android).

0

records lost when the app updates, as tested from the previous version with real data.

100%

on your device: no accounts, no ads, no analytics, no cloud copy of your finances.

✔️ Upgrades from older versions keep every transaction

✔️ Restart, refresh & offline tested

✔️ Damaged or unknown data is never overwritten

✔️ Third-party code is integrity-locked
